

Town of Wallingford Health Department
Community and Behavioral Health Low Cost Assistance Programs
Revised: 6/27/14

The following information is provided to assist residents in finding low cost health services:

1. **Birth2Three Child Development Services:** FREE in-home assessment and services for children ages birth-3 yrs who are not developing or learning new skills expected of their age. Parent or provider referrals. 1-800-505-7000 or www.birth23.org Bilingual services available.
2. The **Community Health Center, 134 State St., Meriden** provides full medical care, no age restrictions or residency requirement. Services include: immunizations, primary care, prenatal services, pharmacy, behavioral health care and full dental services. CHC will also help in the completion/selection of Health Care Insurance Coverage.

Residents are encouraged to call in advance of a medical need to complete the initial **intake required to determine cost of services: 203-237-2229**. Bilingual services available.

Once intake is completed, you are assigned to a primary care provider, routine doctor appointments are made within 2 weeks and same day service is available for REGISTERED patients with urgent need.

3. **Masters Manna** is a local satellite clinic for Community Health Center and provides medical care, no residency requirements. **Appointment required: 203-678-3042**. SNAP applications and food pantry available.
4. **WIC** (Women, Infants and Children), Nutritional assistance program. Service locations are available in Meriden and Wallingford. **Appointment required: 203-630-4245**. Bilingual services available.
